

**RxSavingsPlus® for Non-Covered Drugs**

**Lower member  
out-of-pocket costs,  
improve satisfaction**

**RxSavingsPlus for Non-Covered Drugs helps plan members save money on non-covered medications.**

The program allows members with prescription benefit coverage to purchase medications not covered by their prescription plan at a discount, without undermining the client's chosen formulary strategy.

**SAVINGS ON NON-COVERED MEDICATIONS\***

up to **80%** on generics and up to **40%** on brand-name medications

**Available at no cost to clients**

**Does not impact rebates** – the program targets non-covered drugs only, not formulary rejects

**CVS**  
Health®

## Easy for members to use

The solution is integrated into the pharmacy benefit plan, so the experience is seamless for members. They simply present their CVS Caremark® pharmacy benefit card and their prescription at one of more than 65,000 pharmacies in the CVS Caremark Discount Network and get a discount on the non-covered medication.

## Providing savings and safety

Member utilization data is captured from each claim to give pharmacists, providers and payors a more complete picture of each member. This helps ensure that critical safety measures can be performed, such as drug utilization review, to help avoid adverse events. Third-party discount card programs do not have this capability.

In 2021, RxSavingsPlus for Non-Covered Drugs helped 1.1 million members save a total of **\$76.3 million**, saving them an average of **44%** on their medication fills. \*\*
