

We're helping to enhance your core health benefits program with curated health and wellness solutions focused on specific conditions including weight management, mental well-being, musculoskeletal health and infertility.

We've made it effortless to select the solutions that best fit your members' needs, enabling them to manage and improve their overall health while building a healthier bottom line for you.

- Ease of contracting
- Lowest price
- Rigorous vendor vetting
- ✓ Real-time eligibility verification

Point Solutions Management is a simple way to offer carefully evaluated digital health and wellness solutions to members.

Curated health and wellness solutions to support your goals

Payors are often confronted with the challenge of navigating the digital solutions landscape. Concerns ranging from privacy and security to clinical efficacy and costs are top of mind.

Our Point Solutions Management makes it easy for payors to choose these carefully selected solutions that meet their goals of maximizing benefits while minimizing spend. Our fully vetted vendors are obligated under their contract to offer the most competitive pricing for clients. We have also made significant investments to ensure a truly seamless administrative experience for our clients. During onboarding, vendors connect directly to the CVS Caremark system for automated and accurate real-time eligibility verification.

Vendor scan

Identifies solutions based on:

- Client priority
- · Impact to health care spend
- · Health care technology trends

Clinical review

Tested by CVS Health clinicians:

- · User safety review
- Clinical trial results
- End-to-end member experience

Business review

Evaluates operational model to ensure:

- Ability to support CVS Health clients at scale
- · Financial viability
- Review of ROI claims (if applicable)

Security review

Ensures compliance with:

- Applicable regulations
- User privacy (HIPAA)
- CVS Health third-party data security policy

Ongoing monitoring

Oversight of:

- · Member eligibility and real-time billing verification
- Clinical and security standards
- Performance and outcomes

CVS Health Point Solutions Management offers clients:

Ease of contracting

• Full contract negotiations, including agreement to terms that are critical for our clients — across security, indemnification, data sharing, privacy protections, etc.

Lowest price

- Vendors are obligated under their contract to offer the most competitive pricing for clients
- · Billing integrated with pharmacy benefit management (PBM) invoice

Rigorous vendor vetting

 Comprehensive clinical, security and business review, including end-to-end plan member experience

Real-time member eligibility verification

- Clients pay only for utilization that aligns with their health and wellness benefits strategy
- · Client can focus usage based on clinical or demographic criteria
- Eligibility is checked in real-time where available. So, when a member enrolls in a program, a fast and streamlined process ensures clients only pay for actual utilization

With our robust, in-depth review and evaluation process, Point Solutions Management offers payors a simple, efficient way to add carefully evaluated digital health and wellness point solutions to the traditional benefits they offer their members.
